About the Role

At Novartis, we are reimagining medicine to improve and extend people's lives, and high-quality data is fundamental to that mission. As a Global Financial Master Data Specialist, you will play a critical role in ensuring the accuracy, integrity, and governance of finance and customer master data that

supports key business processes across the organization.

About the Role

Key Responsibilities

- Create, maintain, and validate customer, finance, and controlling master data within SAP and related systems
- Ensure the accuracy, integrity, and compliance of master data entities, attributes, and hierarchies across global processes
- Participate in global and local projects, including testing activities for finance and master data tools and enhancements
- Monitor data quality, perform impact assessments, and escalate process or technical issues affecting master data integrity
- Support KPI reporting, operational analysis, and continuous improvement initiatives to enhance service delivery
- Collaborate with technical and business teams to resolve data-related issues and optimize master data processes
- Support compliance, audit, and SOX control activities while promoting a strong governance and control environment

Essential Requirements

- 1-4+ years of relevant experience in master data management, finance operations, accounting, or related business process environments
- Strong analytical and problem-solving skills with a focus on data quality, accuracy, and process improvement
- Understanding of internal controls, compliance requirements, and audit-related processes in a corporate environment
- Fluency in English with strong communication and stakeholder management skills
- Proven ability to collaborate effectively within a multinational organization
- Prior experience in financial shared service center environments

Desirable Requirements

- Experience supporting SOX compliance, governance, or master data control frameworks within a multinational organization
- Experience with data analytics, reporting tools, User Acceptance Testing, or finance transformation initiatives
- Preferred Working knowledge of SAP ECC, S4 and MDG and finance-related master data, including customer, finance, or controlling data structures

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
