摘要

Lead scientific engagement with their Medical Experts. Implement clinical and educational strategies and respond to unsolicited medical enquiries.

About the Role

Major accountabilities:

- Provide account education for on-site preparation and infusion processes for RLT/RLI products, and education for appropriate radiopharmaceutical licensing and licencing logistics.
- Identify, establish and maintain collaborative relationships with national opinion leaders, investigators, institutions and professional societies strategic to appropriate product development and use.
- Profile and mapping external accounts with focus on nuclear medicine and radiation oncology, urology and other clinic departments.

- Partner and support internal partners with GDD, TRD, NPP and training for educational materials and appropriate educational presentations to external partners.
- Lead RLT regional critical projects, launch preparation activities, liaising with society associations in line with the medical strategy, and remove clinical & non-clinical barriers.
- Support country medical affairs strategy in line with the global strategy, country insights and secure regional implementation of planned Medical Affairs activities within the designated therapy area(s).

Key performance indicators:

- Works within Ethics and Compliance policies
- Achievement of annual targets for medical activities.

Minimum Requirements: Masters' degree or above, medical background, clinical medicine is preferred

Work Experience:

- MNC MSL experience in oncology area is preferred

Skills:

- Good communication skill
- Medical Education and Scientific Engagement

Languages :

- English
