

Sr. DevSecOps Engineering

Job ID
REQ-10087157

9月 17, 2026

India

摘要

Internal Title: Sr. Specialist DDIT US&I DevSecOps Engineering

#LI-Hybrid

Location: Hyderabad, India

Relocation Support: Yes

Imagine being at the forefront of secure innovation, where every deployment, cloud platform, and AI solution you enable helps accelerate business impact without compromising security. As a Senior DevSecOps Engineer, you will play a critical role in embedding security, automation, and operational excellence across the software development lifecycle. Working with cloud, engineering, architecture, and cybersecurity teams, you will shape scalable DevSecOps practices, modernize delivery pipelines, and enable secure AI, data, and application platforms that power the future of digital transformation. This is an opportunity to influence enterprise-wide engineering standards while driving meaningful improvements in security, reliability, and developer productivity.

About the Role

Key Responsibilities

- Design and maintain secure, scalable CI/CD pipelines across cloud, application, data, and AI platforms.
- Embed security controls throughout development, testing, deployment, and production operations.
- Integrate code quality, vulnerability scanning, and compliance checks into automated delivery pipelines.
- Implement Infrastructure as Code solutions for consistent, repeatable, and auditable environments.
- Build and support containerized deployments using Kubernetes and cloud-native technologies.
- Enable secure cloud architectures across compute, networking, identity, monitoring, and storage services.
- Drive vulnerability management through identification, prioritization, remediation, and continuous risk reduction.
- Implement observability, monitoring, logging, and alerting across applications, infrastructure, and security domains.
- Establish secure release management practices, deployment governance, and operational resilience standards.
- Mentor engineering teams on DevSecOps, cloud security, automation, and secure software delivery practices.

Essential Requirements

- Bachelor's or Master's degree in Computer Science, Information Technology, Engineering, Cybersecurity, or a related field.
- 8+ years of experience in DevSecOps, Cloud Engineering, Platform Engineering, Site Reliability Engineering, or Application Security.
- Strong experience designing and managing enterprise-scale Continuous Integration and Continuous Delivery pipelines.
- Hands-on expertise implementing security controls including code analysis, dependency scanning, container security, and compliance validation.
- Deep knowledge of cloud platforms, Infrastructure as Code, containerization, Kubernetes, and deployment automation.
- Strong scripting, automation, problem-solving, and stakeholder communication skills in complex enterprise environments.

Commitment to Diversity and Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

Accessibility and accommodation

Novartis is committed to working with and providing reasonable accommodation to individuals with disabilities. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to perform the essential functions of a position, please send an e-mail to diversityandincl.india@novartis.com and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally. [Read our handbook \(PDF 30 MB\)](#)
