摘要

#LiHybrid
Location: Schaftenau, Austria.

This role is based in Schaftenau, Austria. Novartis is unable to offer
relocation support for this role: please only apply if this location is accessible for you.

We are seeking a Process Engineer to support manufacturing operations and engineering projects within a dynamic drug product environment.
This role will focus on providing engineering expertise across equipment lifecycle activities, driving technical improvements, and ensuring reliable, compliant, and cost-effective solutions that support site and project objectives.

About the Role

Major accountabilities:

- Execute engineering activities including design, implementation, qualification, maintenance, and continuous improvement within the assigned technical area.
- Develop and implement reliable, cost-effective technical solutions while ensuring quality, compliance, and operational excellence.
- Provide engineering support for manufacturing equipment, utilities, and facility systems.
- Lead or contribute to equipment, utility, and facility improvement projects focused on productivity, energy efficiency, environmental compliance, and maintenance optimization.
- Identify and evaluate technical solutions to address operational and project-related challenges.
- Prepare equipment specifications, system requirements, and project documentation, including User Requirement Specifications (URS).
- Develop project cost estimates and support Value Improvement Reviews to optimize project execution and investment decisions.
- Obtain and coordinate required permits for maintenance, calibration, and project activities.
- Support the installation, commissioning, and lifecycle management of manufacturing equipment and systems.
- Collaborate with cross-functional teams to ensure successful project delivery and achievement of site objectives.

Essential requirements:

- Degree in Engineering or a related technical discipline, with experience in process engineering within a pharmaceutical, biotechnology, or other highly regulated manufacturing environment.
- Strong knowledge of aseptic/sterile manufacturing processes; exposure to compounding, assembly, packaging, or mechanical engineering is an advantage.
- Proven ability to identify and implement reliable, cost-effective technical solutions while maintaining high standards of quality, compliance, and operational excellence.
- Strong project management, problem-solving, and technical documentation skills, including preparation of equipment specifications, URS, cost estimates, and engineering reports.
- Fluent English is required; German is highly desirable. Ability to work effectively in cross-functional and international teams with a hands-on, proactive mindset focused on continuous improvement.
- Excellent communication and stakeholder management skills.

For this role, we offer a **temporary contract of 2 years**.

Rewards

You can find everything you need to know about our benefits and rewards in the Novartis Life Handbook. https://www.novartis.com/careers/benefits-rewards

In addition to a market-competitive base salary, we offer an attractive incentive program, a modern company pension scheme, childcare facilities, learning and development opportunities as well as worldwide career possibilities within the Novartis group

In accordance with Austrian law, we are obliged to disclose the minimum salary as stated in the collective bargaining agreement. For this position the minimum salary is € 65,605.54 /year (on a full time basis). We also offer a potential market oriented excess payment in line with your experience and qualifications.

The salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters. Further details will be provided during the application process.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

Note: Benefits and compensation may vary by country and are subject to local legal requirements, including provisions of collective bargaining agreements where applicable. A full overview of your compensation package, including any relevant collective bargaining agreement details applicable to your role based on your employment location and Novartis employer entity, will be communicated separately to you during the application process.

Commitment to Diversity and Inclusion / EEO paragraph:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? https://www.novartis.com/about/strategy/people-and-culture

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally. Read our handbook (PDF 30 MB)
