摘要

#LI-Onsite

Location: Selangor, Malaysia

Relocation Support: This role is based in Selangor, Malaysia. Novartis is unable to offer relocation support: please only apply if accessible.

Make quality count where it matters most: protecting patients and ensuring trusted medicines reach them safely. As a Quality Assurance Specialist, you will strengthen quality and compliance across pharmaceutical products and medical devices, collaborating with internal teams, external partners, and regulatory authorities. You will help maintain robust quality systems, support inspection readiness, oversee product-release activities, and promote a strong culture of data integrity and continuous improvement across the organization.

About the Role

Deadline for applications: **28th October 2026.**

Major Accountabilities:

- Maintain quality systems and procedures supporting Good Manufacturing Practice and Good Distribution Practice compliance.
- Oversee product release against registered specifications and applicable regulatory requirements.
- Monitor key quality indicators, identify gaps, and coordinate timely risk-mitigation actions.
- Manage inspections, complaints, deviations, recalls, product tampering, and corrective and preventive actions.
- Provide quality oversight for third-party manufacturing, packaging, labelling, storage, and distribution activities.
- Support medical-device compliance, licensing, safety actions, complaint handling, and regulatory reporting.
- Promote data-integrity awareness and coordinate plans that strengthen a culture of responsible data management.
- Partner with supply chain, regulatory affairs, external suppliers, and regulatory authorities on quality matters.

Essential Requirements:

- Degree in life sciences or a related field.
- Experience in quality assurance or quality control within the pharmaceutical or healthcare industry.
- Knowledge of Good Manufacturing Practice and Good Distribution Practice requirements.
- Understanding of local pharmaceutical regulations, quality standards, and applicable medical-device requirements.
- Fluency in written and spoken English and the local language.
- Strong communication, collaboration, and stakeholder-management skills across cross-functional and external partnerships.
