Slovenia

摘要

Location: Menges, Slovenia #onsite
*please note that this is a 12 month fixed term contract

Role Purpose:
Leads and manages all project and network activities within a cross-functional project team and applies advanced scientific and technical expertise, to resolve complex research and development challenges. Guides team members, manages operational activities in laboratories or facilities in line with assigned responsibilities, and develops science and technology strategies.

Namen delovnega mesta
Vodi in upravlja vse projektne aktivnosti v okviru ve č funkcijske projektne ekipe, sodeluje/vodi znanstvene skupine, ter uporablja poglobljeno znanstveno in tehni č no znanje za re š evanje zahtevnih raziskovalno-razvojnih izzivov. Usmerja ostale č lane projektne ekipe, upravlja operativne vidike dela v laboratorijih skladno z dodeljenimi odgovornostmi ter oblikuje strategije na podro č ju znanosti in

tehnologij.

About the Role

Key responsibilities

- Develops and optimizes upstream processes, evaluates and implements new technologies, and applies knowledge from scientific and technical literature. Presents results at internal and external conferences and network meetings and may contribute to scientific publications and patent applications.
- Leads functional subteams, assesses and aligns project resource requirements and timelines. Represents the function in technical teams and performs project tasks and responsibilities related to their area of expertise.
- Takes responsibility for the operation and management of complex equipment, infrastructure maintenance, and the planning of required investments.
- Interprets results, evaluates data and draws appropriate conclusions. Oversees project-related scientific activities and performs complex tasks for which established procedures are not yet available.
- Develops process procedures or development guidelines and promotes their implementation. Prepares scientific reports and supports the preparation of regulatory submission documentation. Acts as a technical expert during audits, inspections and due diligence reviews.
- Communicates and resolves issues within their area of responsibility in a timely manner. Leads the transfer of knowledge, experience and procedures to other colleagues, departments or external contractors,
- Takes responsibility for personal and professional development
- Leads initiatives that proactively ensure compliance and continuous improvement.
- Ensures compliance to company policies, regulatory requirements and HSE requirements
- Performs other duties defined through the objective-setting process.
