摘要

We are seeking an experienced Medical Scientific Liaison to join our high-performing Immunology team on a 14-month contract as parental leave cover, commencing in January 2027.

This role will focus on our Rheumatology assets and will be based in Victoria, with responsibility for engaging healthcare professionals across Victoria, South Australia and Tasmania. The role is approximately 80% field-based and offers the opportunity to work closely with leading Rheumatologists and Medical Experts across the region.

As part of the Immunology team, you will also be connected to the broader Novartis MSL network, collaborating with colleagues across therapeutic areas and contributing to a strong, supportive medical community.

This opportunity would suit someone with prior MSL experience, a strong growth mindset, excellent customer and stakeholder management skills, and the ability to act as a trusted medical contact for Novartis.

As the Medical Scientific Liaison, you will lead scientific engagement with Medical Experts and

support the implementation of clinical and educational strategies. You will respond to unsolicited medical enquiries and provide high-quality scientific exchange aligned with Novartis policies, compliance standards and country medical strategy.

About the Role

- Lead scientific engagement with Medical Experts across Rheumatology.
- Educate Medical Experts on relevant medical and scientific information.
- Identify, map and prioritise Medical Experts and key accounts.
- Develop and execute Medical Expert engagement plans aligned with country strategy.
- Identify opportunities to involve Medical Experts where a specific medical need has been identified.
- Respond to unsolicited requests for medical and scientific information.
- Support Novartis clinical research programs and optimise trial execution.
- Provide scientific and educational support to potential and active study sites in collaboration with Clinical Operations.
- Facilitate the Investigator Initiated Trial process upon investigator request.
- Act as a medical resource for field-based and cross-functional colleagues.
- Report technical complaints, adverse events and special case scenarios related to Novartis products within 24 hours of receipt.
- Support distribution of marketing samples where applicable.

What you ’ ll bring

- Previous experience as a Medical Scientific Liaison.
- Experience in Immunology and/or Rheumatology would be highly regarded.
- Strong scientific acumen and ability to translate complex data into meaningful scientific exchange.
- Excellent stakeholder engagement and customer management capability.
- Confidence engaging with Rheumatologists and Medical Experts.
- Strong collaboration skills and ability to work across a broader MSL network.
- A growth mindset and proactive approach to learning and contributing.
- High ethical standards and a strong understanding of compliance requirements.
- Ability to work effectively in a field-based role across VIC, SA and Tasmania.

This is an exciting opportunity to join a collaborative and high-performing Immunology team and contribute to meaningful scientific engagement across Rheumatology.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each

other. Combining to achieve breakthroughs that change patients ’ lives. Ready to create a brighter future together? https://www.novartis.com/about/strategy/people-and-culture
