摘要

#LI-Hybrid

Reporting to the Director, Performance Reporting, the Associate Director, Performance Reporting Product Owner is responsible for owning the roadmap, delivery, and continuous enhancement of performance reporting capabilities within business intelligence platform. The role partners with business stakeholders, analytics, engineering, UX, and data teams to deliver trusted reporting products, actionable insights, and intuitive user experiences that enable data-driven commercial decision-making.

This position will be located at East Hanover site and will not have the ability to be located remotely. This position will require up to 20% travel as defined by the business (domestic and/ or international).

Please note that this role would not provide relocation, and only local candidates will be considered.

There are two positions available.

About the Role

Key Responsibilities:

- Own and prioritize the product backlog for performance reporting capabilities, dashboards, and analytics products
- Partner with commercial stakeholders to gather requirements, define user stories, acceptance criteria, and reporting success metrics.
- Collaborate with Analytics Engineering, Data Science, Engineering, UX, and Data teams to deliver scalable reporting products.
- Drive product discovery, sprint planning, release management, user acceptance testing, and continuous product improvement.
- Monitor product adoption, reporting quality, user satisfaction, and business outcomes to identify enhancement opportunities.
- Ensure reporting products align with enterprise data governance, platform standards, and regulatory requirements.
- Serve as the day-to-day product owner for assigned reporting capabilities and facilitate cross-functional product ceremonies.

Essential Requirements:

- Bachelor's degree in Business, Computer Science, Engineering, Information Systems, Data Science, or a related discipline; advanced degree preferred.
- 5+ years of experience in product ownership, product management, business intelligence, analytics, or enterprise reporting solutions.
- Experience delivering reporting, dashboard, or analytics products using agile product management practices.
- Strong analytical, communication, stakeholder management, and prioritization skills.
- Working knowledge of business intelligence platforms, data visualization, analytics, SQL, and modern software development methodologies.

Desirable Requirements:

- Experience supporting commercial reporting, enterprise analytics platforms, or AI-enabled reporting products.
- Experience in pharmaceutical, healthcare, or other highly regulated industries

Novartis Compensation Summary:

The salary for this position is expected to range between $145,600 and $270,400 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and

experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.
